

On Monday June 7th we hosted the inaugural Great Western Open at Crow River Golf Club. Sponsored by Cargill and benefiting the Minnesota Military Family Foundation. The tournament, to say the least, was an incredible success and this was in no small part to the incredible professionalism and dedication of Tom Parsons and the entire staff at Crow River Golf Club.

From my first call with Tom, to the final handshake upon completion of our event, and beyond, we felt like we were the single most important thing Tom and the club had on their mind.

The course was in majestic condition and I can say without reservation there is no better 18 holes of golf in the Central Minnesota Lakes area. What our team now simply refers to as "The Crow" was set perfectly, played marvelously, challenged appropriately and I know of no one who didn't love the course.

Moreover, the staff, facilities, and first class customer service and support shown to all of our participants was second to none. Our donors, players, and guests could not escape the first class hospitality shown by every single person on the Crow River Team.

If you're looking to have a beverage in the club house, simply hit a bucket of balls, or host 150 guests at your fist ever golf tournament ... look no further than Crow Rive Golf Club... first class venue.

PS - looking for a banquet, dinner, or event venue??? Crow River's event staff will leave you feeling like a million bucks!
